MAY 18th, 2019

Joining Hands and standing in silent solidarity with like-minded people is clearly one of the the most important things we can do to make a difference and educate people on the disaster of climate change! Say NO to fossil fuels and YES to clean energy!

Join Hands with us by organizing a 15-minute event. Visit the web page to learn how and register your event. Then work to get the word out to get people to the beaches through social media and our resources. We have a training slide and video to help! This event creates a powerful image that we ask you to send to your elected officials after the event! Join us on May 18th, 2019 around the globe!
